## REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1952, any article of the following named classes of published works deposited for copyright between January 1, 1948, and January 1, 1949, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific  
or technical character.

Photographs.

Prints and pictorial illustrations excluding  
prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347
---------------------

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$0.50 per issue, \$1.00 per year.

Publishers' Directory . . . . .	73

## PREFACE

**THIS** part of the *Catalog of Copyright Entries* contains an alphabetical list of domestic and foreign maps, atlases and other cartographic works which were registered in the Copyright Office from January 1, 1951, through June 30, 1951. Renewal registrations of maps, atlases, etc., made in this period are listed in a separate section of this catalog.

**Arrangement.**—This catalog is divided into four sections. The first section is made up of complete entries for current works containing essential bibliographic and copyright data. These are arranged alphabetically under the name of the "authority" (that is, the name of the person, firm, institution, or other agency primarily responsible for the content of the map). Included also in this section are brief entries in the form of cross-references from distinctive titles and from copyright claimants, editors, compilers, joint authors, draftsmen, and publishers.

In the second section, an "Index of Areas and Subjects," each registration is entered under headings descriptive of its subject, geographical area, or type (i. e., Atlas, Globe, etc.). The name under which the full entry may be found in the first section follows that of the geographical area represented in the work.

The third section, "Renewals," consists of a list of maps, atlases etc., for which renewal copyrights were registered during the period covered by this catalog. The arrangement is the same as that of the first section. The list also includes brief entries in the form of cross-references from titles, and from essential names associated with the work, including variant forms of these names.

The fourth section is a "Publishers' Directory" which lists, alphabetically, the names of publishers

of the maps, atlases and other cartographic works described in the first section, together with the latest address for each, as given in the application or copy.

**Bibliographic Data.**—Each main entry, for current works, includes, as applicable: 1) title; 2) edition statement, together with any available information on previous publication; 3) imprint, consisting of place of publication, publisher and date of publication (imprint data are omitted in whole or in part when the information supplied to the Copyright Office has indicated that the claimant given in the copyright statement is also the publisher and that date of publication agrees with corresponding data given in the copyright statement); 4) sizes, series and scale, given as a representative fraction if it can be ascertained and followed by the linear scale as it appears on the map; 5) descriptive notes.

When a sheet consists of two or more maps, all of which are included in the claim for copyright as given in the application, or when the title is selected from an outside cover and appears to include several specific map titles contained therein, the specific titles of the individual maps are given in a note preceding the copyright statement. In all other cases in which there is indication, from facts known to the Office, that additional maps printed on the sheet are not included in a specific claim, the note appears in brackets following the copyright statement. The note includes the position of the additional maps in relation to the one for which main entry is made; e. g., "On sheet with," "On verso;" it also contains the title of the additional map, or the number of maps, if more than one, and, when accompanied by a separate copyright notice, a state-

ment of the data contained in the notice. Inset maps, however, are noted only if they are included in the claim for copyright or if several appear on the verso, in which case they are included in the statement of the number of maps.

The area headings used in this catalog consist of the names of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When the map contains three or more states comprising part of one of the major geographical divisions of the United States, one of the following headings is used: Atlantic Seaboard; Gulf States; Middle States; Mountain States; New England States; North Central States, east; North Central States, west; Pacific States; South Atlantic States; South Central States, east; and South Central States, west. If the area shown on the map does not coincide with any of the foregoing eleven designations, one of the following subdivisions under "United States" is used: northeastern, eastern, southeastern, central, northwestern, western, or southwestern. Names of rivers, lakes, and other geographical features are used when necessary.

The asterisk preceding the title indicates that Library of Congress printed cards are available. Orders for or inquiries regarding these cards should be addressed to the Card Division of the Library of Congress.

For renewals, the entry consists of 1) the title, including the area and 2) the edition and other bibliographic data, if given in the application.

**Copyright Data.**—The portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. This is followed by: 1) a brief statement of the new matter on which copyright is claimed when such a statement is given in the copyright application; 2) the name of the copyright claimant and the chief place of publication (if not given in a separate imprint statement) 3) the date of publication as given in the copyright application followed by an "in notice" statement if the copyright notice differs from the year date in the application. Any information contained in the copyright application or in the copy of the work itself which relates to the registration of an earlier version of the work is given in brief form at the end of the entry.

For renewals, the entry gives: 1) the date of original copyright; 2) the original registration number; 3) the renewal registration number; 4) the date of the receipt of renewal application; 5) the name of the renewal claimant; and 6) an abbreviation in parentheses representing the applicant's statement of the basis of his renewal claim; e. g., John Doe (NK) indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.

In the case of each entry the name of the copyright claimant is that given at the time of registration. Any information relating to subsequent changes of ownership recorded in the Copyright Office can be ascertained upon request and upon payment of the statutory search fee to the Register of Copyrights.

**Deposit of Copies.**—In the case of every copyright entry listed in this part of the *Catalog*, except in the case of renewal copyrights, the deposit of copies (or copy) as required by sections 13 or 215 of Title 17 of the United States Code has been made.

**Authority.**—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**Organization of the Catalog.**—This issue of the *Catalog* is part of Volume 5 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the "Table of Organization" which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited, under section 215 of Title 17 of the United States Code, are distinguished by a zero immediately following the symbol. The symbol R does not represent a class designated by

the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under symbols other than those listed for the particular part if the subject matter or type of material of these registrations is similar to that generally included.

**Orders.**—Orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may

be made either with or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the "Table of Organization." The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

**Inquiries.**—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

## ABBREVIATIONS

The following list includes abbreviations and symbols used in this catalog with specific copyright of bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	—author	p.	—page, pages
a.k.a.	—also known as	(PCB)	—Proprietor of a work copyrighted by a corporate body otherwise than as assignee or licensee of the author
(C)	—child or children of the deceased author	(PWH)	—Proprietor of copyright in a work made for hire
©	—copyright symbol	pseud.	—pseudonym
ca.	—circa	pub.	—published, publishing
cm.	—centimeter, centimeters	rev.	—revised, revised by, revision
col.	—colored	t.a.	—trading as
comp.	—compiler	tr.	—translator
d.b.a.	—doing business as	v., vol.	—volume, volumes
ed.	—edited by, editor, edition	(W)	—widow of the author
(E)	—executor(s) of the author	(Wr)	—widower of the author
fold.	—folded		
(NK)	—next of kin of the author who is not living, there being no will		

## COPYRIGHT REGISTRATIONS FOR MAPS

January–June 1951

Class F—Maps published in the United States . . . . .	1,222
Maps published outside the United States . . . . .	5
Total . . . . .	1,227
Renewals . . . . .	349

The above figures show the registrations for maps for January–June 1951, but do not necessarily represent the exact number of entries in this issue of the *Catalog*. Registration figures for other classes of material may be found in the respective catalogs.

## MAPS AND ATLASES

An alphabetical list of all maps, atlases, and other cartographic works registered during the period covered by this catalog. Each work is entered under authority (that is, the name of the person, firm, institution or other agency primarily responsible for the content of the work). Included in the list are cross-references from distinctive titles, copyright claimants, editors, compilers, joint authors, draftsmen, and publishers.

# INDEX OF AREAS AND SUBJECTS

An index in which each work included in the first section in this issue is entered under headings descriptive of its subject, geographical area, or type (e. g., Atlas, Globe, etc.). The name under which each entry will be found follows that of the geographical area represented in the work. The title of the work follows the name.

## PREFATORY NOTE.

This index is designed to meet the needs of those who are searching for a map of a specific area or one pertaining to a special subject. Specific headings have been used insofar as possible. Where it is found necessary to combine closely related headings cross-references are made from one heading to the other (e. g., Outline Maps. SEE Base and Outline Maps).

The index consists of brief references to the main entries in the first section. The entries

give the subject, including area or type of the work, the name of the authority, and the title of the work.

The area headings consist of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When a map contains three or more states comprising part of one

of the geographical divisions of the United States, one of the headings which is given in the List of Geographical Headings is used. If the area shown on the map does not coincide with any of the geographical designations, one of the following sub-divisions under "United States" is used: northeastern, eastern, southeastern, central, northwestern, western, or southwestern. Names of rivers, lakes, and other geographical features are used when necessary.

# RENEWALS

An alphabetical list, of all maps, atlases, and other cartographic works for which the renewal copyright was registered during the period covered by this catalog. Included are cross-references from titles and from essential names associated with the work including variant forms of these names. Information relating to both the original and renewal registration is included in each entry.

EUROPE in 1922 after the Treaty of Versailles, St. Germain, Neuilly, Trianon, and Sevres. R76077. SEE Rand, McNally and Company.

## REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1953, any article of the following named classes of published works deposited for copyright between January 1, 1949, and January 1, 1950, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347
---------------------

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Registrar of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$0.50 per issue, \$1.00 per year.

Publishers' Directory . . . . .	151

## PREFACE

**THIS** part of the *Catalog of Copyright Entries* contains an alphabetical list of domestic and foreign maps, atlases and other cartographic works which were registered in the Copyright Office from July 1, 1951, through December 31, 1951. Renewal registrations of maps, atlases, etc., made in this period are listed in a separate section of this catalog.

**Arrangement.**—This catalog is divided into four sections. The first section is made up of complete entries for current works containing essential bibliographic and copyright data. These are arranged alphabetically under the name of the "authority" (that is, the name of the person, firm, institution, or other agency primarily responsible for the content of the map). Included also in this section are brief entries in the form of cross references from distinctive titles and from copyright claimants, editors, compilers, joint authors, draftsmen, and publishers.

In the second section, an "Index of Areas and Subjects," each registration is entered under headings descriptive of its subject, geographical area, or type (i. e., Atlas, Globe, etc.). The name under which the full entry may be found in the first section follows that of the geographical area represented in the work.

The third section, "Renewals," consists of a list of maps, atlases etc., for which renewal copyrights were registered during the period covered by this catalog. The arrangement is the same as that of the first section. The list also includes brief entries in the form of cross-references from titles, and from essential names associated with the work, including variant forms of these names.

The fourth section is a "Publishers' Directory" which lists, alphabetically, the names of publishers

of the maps, atlases and other cartographic works described in the first section, together with the latest address for each, as given in the application or copy.

**Bibliographic Data.**—Each main entry, for current works, includes, as applicable 1) title; 2) edition statement, together with any available information on previous publication; 3) imprint, consisting of place of publication, publisher and date of publication (imprint data are omitted in whole or in part when the information supplied to the Copyright Office has indicated that the claimant given in the copyright statement is also the publisher and that date of publication agrees with corresponding data given in the copyright statement); 4) sizes, series and scale, given as a representative fraction if it can be ascertained and followed by the linear scale as it appears on the map; 5) descriptive notes.

When a sheet consists of two or more maps, all of which are included in the claim for copyright as given in the application, or when the title is selected from an outside cover and appears to include several specific map titles contained therein, the specific titles of the individual maps are given in a note preceding the copyright statement. In all other cases in which there is indication, from facts known to the Office, that additional maps printed on the sheet are not included in a specific claim, the note appears in brackets following the copyright statement. The note includes the position of the additional maps in relation to the one for which main entry is made; e. g., "On sheet with," "On verso;" it also contains the title of the additional map, or the number of maps, if more than one, and, when accompanied by a separate copyright notice, a state-

ment of the data contained in the notice. Inset maps, however, are noted only if they are included in the claim for copyright or if several appear on the verso, in which case they are included in the statement of the number of maps.

The area headings used in this catalog consist of the names of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When the map contains three or more states comprising part of one of the major geographical divisions of the United States, one of the following headings is used: Atlantic Seaboard; Gulf States; Middle States; Mountain States; New England States; North Central States, east; North Central States, west; Pacific States; South Atlantic States; South Central States, east; and South Central States, west. If the area shown on the map does not coincide with any of the foregoing eleven designations, one of the following subdivisions under "United States" is used: northeastern, eastern, southeastern, central, northwestern, western, or southwestern. Names of rivers, lakes, and other geographical features are used when necessary.

The asterisk preceding the title indicates that Library of Congress printed cards are available. Orders for or inquiries regarding these cards should be addressed to the Card Division of the Library of Congress.

For renewals, the entry consists of 1) the title, including the area and 2) the edition and other bibliographic data, if given in the application.

**Copyright Data.**—The portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. This is followed by 1) a brief statement of the new matter on which copyright is claimed when such a statement is given in the copyright application; 2) the name of the copyright claimant and the chief place of publication (if not given in a separate imprint statement); 3) the date of publication as given in the copyright application followed by an "in notice" statement if the copyright notice differs from the year date in the application, and 4) the registration number. Any information contained in the copyright application or in the copy of the work itself which relates to the registration of an earlier version of the work is given in brief form at the end of the entry.

For renewals, the entry gives 1) the date of original copyright; 2) the original registration number; 3) the renewal registration number; 4) the date of the receipt of renewal application; 5) the name of the renewal claimant; and 6) an abbreviation in parentheses representing the applicant's statement of the basis of his renewal claim; e. g., John Doe (NK) indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.

In the case of each entry the name of the copyright claimant is that given at the time of registration. Any information relating to subsequent changes of ownership recorded in the Copyright Office can be ascertained upon request and upon payment of the statutory search fee to the Register of Copyrights.

**Deposit of Copies.**—In the case of every copyright entry listed in this part of the *Catalog*, except in the case of renewal copyrights, the deposit of copies (or copy) as required by sections 13 or 215 of Title 17 of the United States Code has been made.

**Authority.**—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**Organization of the Catalog.**—This issue of the *Catalog* is part of Volume 5 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the "Table of Organization" which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited, under section 215 of Title 17 of the United States Code, are distinguished by a zero immediately following the symbol. The symbol R does not represent a class designated by

the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under symbols other than those listed for the particular part if the subject matter or type of material of these registrations is similar to that generally included.

**Orders.**—Orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may

be made either with or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the "Table of Organization." The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

**Inquiries.**—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

ABBREVIATIONS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	—author	(PCB)	—proprietor of a work copyrighted by a corporate body otherwise than as assignee or licensee of the author
a.k.a.	—also known as	(PCW)	—proprietor of a composite work
(C)	—child or children of the deceased author	(PPW)	—proprietor of a posthumous work
©	—copyright symbol	pseud.	—pseudonym
ca.	—circa	pub.	—published, publishing
cm.	—centimeter, centimeters	(PWH)	—proprietor of copyright in a work made for hire
col.	—colored	rev.	—revised, revised by, revision
comp.	—compiler	t.a.	—trading as
d.b.a.	—doing business as	tr.	—translator
ed.	—edited by, editor, edition	v., vol.	—volume, volumes
(E)	—executor(s) of the author	(W)	—widow of the author
fold.	—folded	(Wr)	—widower of the author
(NK)	—next of kin of the author who is not living, there being no will		
p.	—page, pages		

COPYRIGHT REGISTRATIONS FOR MAPS

July–December 1951

Class F—Maps published in the United States . . . . .	930
Maps published outside the United States . . . . .	1
Total . . . . .	931
Renewals . . . . .	223

The above figures show the registrations for maps for July–December 1951, but do not necessarily represent the exact number of entries in this issue of the *Catalog*. Registration figures for other classes of material may be found in the respective catalogs.

# MAPS AND ATLASES

An alphabetical list of all maps, atlases, and other cartographic works registered during the period covered by this catalog. Each work is entered under authority (that is, the name of the person, firm, institution, or other agency primarily responsible for the content of the work). Included in the list are cross-references from distinctive titles, copyright claimants, editors, compilers, joint authors, draftsmen, and publishers.

# INDEX OF AREAS AND SUBJECTS

An index in which each work included in the first section in this issue is entered under headings descriptive of its subject, geographical area, or type (e.g., Atlas, Globe, etc.). The name under which each entry will be found follows that of the geographical area represented in the work. The title of the work follows the name.

## PREFATORY NOTE

This index is designed to meet the needs of those who are searching for a map of a specific area or one pertaining to a special subject. Specific headings have been used insofar as possible. Where it is found necessary to combine closely related headings cross-references are made from one heading to the other (e.g., Outline Maps. SEE Base and Outline Maps).

The index consists of brief references to the main entries in the first section. The entries

give the subject, including area or type of the work, the name of the authority, and the title of the work.

The area headings consist of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When a map contains three or more states comprising part of one

of the geographical divisions of the United States, one of the headings which is given in the List of Geographical Headings is used. If the area shown on the map does not coincide with any of the geographical designations, one of the following sub-divisions under "United States" is used: northeastern, eastern, southeastern, central, northwestern, western, or southwestern. Names of rivers, lakes, and other geographical features are used when necessary.
